

Schedule of Works: Provision of seven new CCTV cameras and relocation of three existing CCTV cameras at the Grade II* Listed Richmond Lock and Weir.

September 2024

The Proposed Works

This application of Full Planning Permission and Listed Building Consent seeks approval for the Provision of seven new CCTV cameras and relocation of three existing CCTV cameras at the Grade II* Listed Richmond Lock and Weir.

The specifications and fixing information of the proposed CCTV cameras can be found as part of Appendix 2 of the 'Richmond Lock & Weir CCTV Cameras detailed information' document which provides details of the type of the proposed cameras, along with the fixings proposed for securing the cameras.

Proposed Schedule of Works

1. Demolitions – to confirm there is no demolition required as part of the proposed works.
2. The CCTV equipment will be delivered to site and installed as directed by Port of London Authority Civil Engineering Department
3. Make good all working areas as necessary.
4. All new CCTV infrastructure will be monitored and maintained on a daily basis by on site Lock Keepers in line with existing maintenance procedures at the Richmond Lock and Weir facility.

Access and Temporary works.

No closure will be required as part of the proposed works and during the proposed installation of the CCTV and the statutory function of the facility as an operational Lock and Weir will be maintained at all times.
