

Heritage Statement for 52 King Street, Twickenham, TW1 3SH

The proposals are for the replacement of the existing single glazed timber sash windows in Flats 1, 2 and 3, 52 King Street on the first and second floors, for double glazed upvc sash windows.

The proposed windows will be in the traditional sash style and profile with run through sash horns, unlike neighbouring properties where the sash windows have been replaced with upvc casements.

The proposed window colour and profiles will visually match the existing.

There will be no other alterations to the to the property.
