

## Comment on a planning application

### Application Details

**Application:** 24/2263/PS192

**Address:** 32 West Temple SheenEast SheenLondonSW14 7AP

**Proposal:** Dormer roof extensions to both side elevations and rear elevation

### Comments Made By

**Name:** Mrs. Carys Cooper

**Address:** 30 West Temple Sheen East Sheen London SW14 7AP

### Comments

**Type of comment:** Object to the proposal

**Comment:** I wish to raise the following objections:

1 East facing dormer: this will appear out of character from the street view, as well as blocking early sunlight and the view of the Common from my second floor window.

2 North facing dormer: this seems unnecessarily large and is visually intrusive, and will dominate the outlook from my second storey windows. I feel it could be reduced especially as part of it services a utility room. It will also restrict morning sunlight in my garden.

3 Side extension: I am unwilling for the roof of this structure or any added porch to exceed the present height at its western end. The current roof rises less than 10 cm above the return brick wall of my garden, height 253.
