Detailed Comments - Proposed Workshop [continued]

The noise from this workshop would be loud in Church Street, which it is right next to, but also audible at 1, 1A and 2 Johnsons Drive. The use of this workshop along with the proposed turntable suggest the possibility of commercial use, which would be wholly unacceptable unacceptable..

Conditions

If, contrary to these representations, the application is approved I would ask LBRUT to consider imposing strict conditions on the use of the workshop and turntable to rule out any commercial use and to set time limits on the use of the workshop so that it does not cause unacceptable noise nuisance to residents.
