Type of comment: Support the proposal

Comment: I support the cutting of the intruding tree roots across the boundary- to prevent further damage to my carport and garage, also damage to the property of the other residents of Dorchester Mews. We value our assets and think we have the right to know that our property will not be continually damaged.

I understand the importance of tree and conservation areas but in Dorchester Mews there are many carports and garages that have been damaged and will continue to be damaged by these tree roots. There is also damage being caused to the surface of the carports making them uneven which again will continue to get worse over time. Being among some of the older residents, personal welfare is also a concern.

We are talking about 2/3 trees affecting 27 owned structures.
