### Comments

**Type of comment:** Support the proposal

**Comment:** I live opposite to number 22 and like all other neighbours have been informed from the beginning of the design process of the proposed work. Every aspect of the design has been clearly thought out and passionately designed to keep in the character of the road. The roof design matches mine and many others on the street.

The size of the extension is smaller than others on that side of the road, and the loft conversion has been done previously by nearly all other houses on the street.

There is no valid reason to object this proposal. It has my full support and I am grateful to the owner for keeping all neighbours informed throughout the process. I hope to see this go through and wish them good luck!
