### Comments

**Type of comment:** Support the proposal

**Comment:** I own the Carport Space (CP13) which at present, is most-affected by root-related unevenness / lifting of paved surface

I SUPPORT the application by St George (via EKA) to cut applicable Tree Roots which are crossing the Foundation Trench, intruding into Dorchester Mews, and affecting the Paved Surface of the Carport Area.

It is not acceptable for the Pavement / Parking Surface to be left exposed to further action / damage from this Tree, Or to personally be at risk of trip or injury from uneven surfaces, which is a health & safety issue.

I am requesting that the Council approve this Application.
