Comments

Type of comment: Make a general observation

Comment: While I support the renovation of the pre-existing building, I am concerned that the proposed design, particularly the X2 elevation of the two terraced houses on May Road, does not harmonize with the existing houses in the area. Given that the property lies within a conservation area, the design should be more sympathetic to the surroundings. The current plan seems out of character with the traditional aesthetic of May Road, and I would like the appearance of these external properties to be reconsidered to better reflect and preserve the historic integrity of the area and history of the property. I remain supportive of the development overall, but feel this aspect needs further attention.
