Comments

Type of comment: Object to the proposal

Comment: I agree that this group of buildings are in need of enhancement and have looked the worse for wear for many years but they are historic to the area and could, under a different type of development be brought back to life and bring something to the community. This is also a conservation area after all and the design doesn't seem to have taken this fully into account.

We also have the proposals for the re-development of Greggs factory just around the corner. A lot of building in a small part of the town not to mention the high level of the traffic, which already includes heavy goods vehicles.

Parking is a serious issue in this part of town and no accommodation has been made for that, in fact the 2 spaces already there are being removed.

I don't think this development benefits the area or the residents of May or Albion Road who will also have to put up with inconvenience of the build.
