Comment: I would like to take this opportunity to support this application, the property has been in disrepair for years and needs urgent attention. One of the advantages of living in Strawberry hill is the opportunity to see these historical homes renovated to back to their former glory. The architecture of this home is beautiful and if someone is willing to invest time and money to restore it this should be valued and encouraged. I would like to add it will make walking down SH road feel safer, as it is not pleasant walking past a derelict building in the dark. It will be a wonderful addition to the area as the homes on SH road are stunning.
