**Type of comment:** Support the proposal

**Comment:** I support the proposal to bring (what looks like on plan) an amazing educational facility to the area.

Driving by now the grounds look unsightly and it will be good to see the next generation use this facility to learn and grow.

Whilst I understand traffic considerations, most in the area have chosen to purchase or live in a property in the vicinity of the most famous Rugby stadium in the world. The plan to have busses drive into the property and provide off street drop-off would alleviate most of this issue. I also assume there will be an emphasis on green transport like walking from train stations and riding of bikes.

I believe developments like this, and the riverside rejuvenation, will continue to help twickenham area reach the potential it deserves.
