Ref No: DC/Georgia Mud.
Site: 64, The Green, TW2 5AQ.
Re: proposed Planning.

I am against the above proposed
planning application for the following
reasons:

The Old Babe House i.e 64, The Green
is an early 19c. iconic building which
reflects the history of the time and
as a result is an important
contribution to the Green Conservation
area. I feel it needs to be lovingly
restored in keeping with the history
of the area.

I have always understood that

that there is a "Norfolk Window"
of historical interest on this site.

I gather Richmond Council have already
reached 95% of their new dwellings
target for the next five years by
developing the Richmond College area
between the A316 and Cranford Way.
This excludes the approved development
of the old "Greggs site".

The Staines Road / May Road area
is a busy often congested area, and
the possibility of four more dwellings
could generate the need for parking
of eight more cars increasing the
congestion.
