Comment: We refer to the amendment to the planning application 24/2401/HOT dated 6 November 2024.

Clarification is required on the intention of this amendment ie that the pillar is to be moved away from our wall and not just the coping stone to be positioned so that it is not in our air space. If the pillar is not to be moved this is not acceptable for the reasons previously set out. Furthermore it will not be aesthetically correct.

Our comments made previously in our response to the original application still stand – we consider them pertinent to this matter.

In any event assurance is required that planners/enforcement officers will monitor any work to ensure full compliance with any planning approval, in the event such approval is given.
