Comment: The property is situated at the end of our small garden and already has a large side dorma extension to which we were not consulted on by the council. The additional large dorma extension would result in a total lack of privacy to both our small garden and into the rear of our property, enabling the occupants to look straight into our home. 1Westbrook Avenue is angled towards the rear of our home and we would lose any current privacy we have. The property already has a large dorma extension and the addition of another large extension at height will make the property overbearing and being in such close proximity to our property will result in overshadowing and a loss of light. Another extension at height on this house will make the house overbuilt and completely out of keeping with the other properties roof lines in that road.
