### Pre-Application Advice Summary

The proposal seeks to replace the existing single-storey rear extension with a larger structure that extends across the full width of the property and partially down both sides. While there is no objection in principle to this approach, the design must remain subservient to the host property. To achieve this, the extension must sit below the first-floor windows, as stipulated in local design guidance. Currently, the southern section is set too high and will need to be lowered.

A first-floor rear extension is also proposed, spanning part of the rear and side of the property. However, this element raises significant concerns. The local House Extensions SPD recommends that two-storey extensions should be less than half the width of the original dwelling, a standard that the proposal does not meet. Furthermore, the hipped roof design does not integrate well with the existing roof slope and fails to appear as a natural continuation of the property. As a result, the extension appears overly dominant and would constitute overdevelopment of the site.

The two-storey side extension follows some of the design guidance, including being set back at least one meter from the front elevation. However, like the first-floor rear extension, its width exceeds half that of the original property, which is contrary to local policies.

In summary, while there are no fundamental objections to extending the property, revisions are necessary to ensure the extensions are scaled appropriately, remain subordinate to the host building, and align with the character of the area. The reductions to the width and height of the proposed extensions would help address these issues and bring the scheme closer to compliance.

## Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

- No
