Details of the pre-application advice received The Council's House Extensions SPD outlines considerations for roof alterations, emphasizing the importance of preserving the character of the street. In this case, the property is a detached home located in a locality with varied roof typologies. The proposal to create two gabled ends introduces a balanced and cohesive roof profile for the property. As a detached home, the alteration avoids impacting the symmetry of an adjoining property and aligns with permitted development rights, staying within the 50 cubic metre volume allowance. This proposal respects the diverse architectural character of the area and enhances the overall appearance of the property.
