## Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

Yes

No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

A loft conversion with a rear dormer involves extending the existing loft space of a property by constructing a dormer window on the rear roof slope. Specifically, this application proposes the following:

**Loft Conversion:** The existing loft space will be converted into habitable accommodation. This involves reinforcing the existing floor joists to support the new loads, insulating the roof and walls to meet building regulations, and installing necessary services (electrical, plumbing, heating).

**Rear Dormer:** A dormer extension will be constructed on the rear roof slope. This involves cutting into the existing roof structure and building a box-like extension outwards. The dormer will have a flat roof, vertical walls, and windows to provide headroom and natural light within the converted loft space. The precise dimensions and siting of the dormer are indicated on the accompanying plans.

**Access:** Access to the loft conversion will be provided by a new staircase. The proposed location and dimensions of the staircase are shown on the plans. This will typically involve creating an opening in the existing ceiling/first-floor landing and constructing a new staircase within the existing building footprint.

**No other alterations:** This proposal does not include any alterations to the existing street, creation of new streets, construction of hard-standings (driveways, parking areas), means of enclosure (fences, walls), or alterations to the existing drainage of the land/buildings. The existing drainage system will remain unchanged.

The accompanying plans clearly indicate the precise siting and exact dimensions of the proposed dormer, staircase, and internal layout of the loft conversion.

Does the proposal consist of, or include, a change of use of the land or building(s)?

Yes

No

Has the proposal been started?

Yes

No

## Grounds for Application

### Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The existing C3 dwelling use of the land is considered lawful because it is a permitted use under the Town and Country Planning (Use Classes) Order 1987 (as amended). This order categorizes different types of land use, and C3 specifically covers dwellinghouses.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Select the use class that relates to the existing or last use.

### Information about the proposed use(s)

Select the use class that relates to the proposed use.

Is the proposed operation or use

- Permanent  
 Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The loft conversion complies with the criteria outlined in the The Town and Country Planning Act 1990 (TCPA) that allows certain building works and changes of use to be carried out without planning permission through the General Permitted Development Order (GPDO).
