Comment: Whilst in principal I support the provision of Padel courts at David Lloyd and approve removal of current lighting which is detrimental to the flora and fauna of Hampton Heath, I am concerned that the planned work, replacement lighting etc will still have a negative impact on this local site of interest. I personally do not have the expertise to propose a means of achieving the desired goal of padel courts with minimal impact on the open air provision but understand others of the Hampton Heath volunteers who do have the necessary expertise are putting forward comments which, if taken into account, could result in a satisfactory development for both David Lloyd and those who enjoy the open space surrounding the sports centre (human and animal!). I urge the decision makers to require submission of a new application which adequately takes account of these concerns.
