Type of comment: Object to the proposal

Comment: I wish to object to this planning application in its current form, as the proposal is directly next to a Site of Nature Interest and this has not been taken into account. There will be detrimental effects on the current wildlife, flora and fauna especially if the effect of lighting is not addressed.

I also understand that the proposed canopy will be higher than the current fencing already surrounding the current tennis courts, again with a detrimental effect to the SINC.

However I support the proposal of the change to the padel courts but I would like due consideration to be given to any detrimental effects on the SINC and any local biodiversity plans and effects of light pollution.
