

## **SUPPORTING STATEMENT FOR VRC 126 Gloucester Road, Hampton v2.**

### **Widening of existing side dormer**

The property has recent approval for roof extensions (24/1801/HOT) and there are 2 existing dormers on the main roof of the property that were originally proposed to remain as the current sizes.

This application seeks to widen the right hand dormer that faces the side boundary from approx. 1.6m to 2.2m. There will still be a generous spacing between it and the chimney stacks and the change will be minimal within the street scape.

The materials will be as existing with clay tile hung walls and grey sheet roofs. The existing window will remain as is. There would be no material impact on neighbouring occupants.
