Type of comment: Support the proposal

Comment: I strongly support the proposal. I would go further and say this proposal should act as a blueprint for further houseboat development on Taggs Island in terms of sympathetic design, environmental considerations, use of quality materials, care to maintain openness of the MOL and a very pleasing visual aspect both from the bank and inward for islanders as does Firefly. It is, in every respect, an improvement on the previous houseboat and I sincerely hope the application will be approved.
