Comments

Type of comment: Object to the proposal

Comment: To whom it may concern, The changes proposed in the application are in direct conflict to the design and access statement for the original building which was drawn up with significant input from the local community and neighbours to limit objections. We believe that the removal of trees and planting, window modifications, terrace construction, and additions are diminishing residential amenities, affecting privacy for the neighbors, increasing overlooking, and altering the view from several sight lines. We want the application to be rejected.
