Address: 38 Langham Road Teddington TW11 9HQ

Comments

Type of comment: Object to the proposal

Comment: Objection according to: LP1 of the local Plan and SPD (local character and design quality) which states that the proposed development should be in keeping with the existing buildings and should not prejudice the appearance of the locality.

The outbuilding in its current form has been constructed with green corrugated metal roofing and metal walls, which is not in accordance with the approved planning permission.

We feel it is not in keeping with the local character of the existing gardens and buildings both in appearance and in scale.

It has been built just 68cm from our boundary fence at a height of nearly 4 metres (3.85m) - affecting the light into our garden.

FYI We did not receive any consultation paperwork by post from the council - neither for the original application nor for this amendment.
