### Comments

**Type of comment:** Make a general observation

**Comment:** I agree new flats will be an improvement on the existing garages but please can some effort be made in relation to the character.

I note the new houses that have recently been finished along the same stretch are out of character with the surrounding area, and the rear side (which is very visible across the railway) are particularly ugly, with an odd mixture of colours & materials. There is almost no soft landscaping, just a small number of cheap immature trees.

Please can you ask the developer to improve the aesthetic aspect.
