Comments

Type of comment: Support the proposal

Comment: I am fully supportive of this latest application. This is a great improvement on what was previously moored. There is a very modest increase in size that is not appreciable from any public viewpoint. The design is a great improvement on the old boat that had reached the end of life in practical terms. This new boat gives longevity to the plot. It was far too small for modern living standards. However this new boat makes far reaching ecological and energy enhancements that could never have been achieved on the old boat. This boat is a fantastic improvement to the MOL.
