Comment: I walk past this house almost every day and wish to object to this development on grounds of: visual amenity, the proposed light well at the front is not in keeping with the look of the terrace in this conservation area; loss of green area, the front and rear gardens are already reduced by the side extension, the basement development will cause further reduction; overdevelopment under LBRUT's own good practice guide for basement developments; sustainable local surface water drainage would be impacted by a large basement development causing problems for nearby properties as rainfall becomes heavier due to climate change; the stability of adjacent properties are likely to be affected by this development.
