Comments

Type of comment: Object to the proposal

Comment: I am emailing you as a representative (over 24 flats) of the residents and owners of Cherry Tree and Acacia court which are located right opposite of the propose development and planning application.

We have already have lost privacy and right to enjoy light, etc. since this development originally started. We sit in our living and bed rooms with curtains closed due to neighbours having direct view inside our apartments.

The proposed development will add additional height to an already tall building and this is unacceptable.

No formal consultation were held before and this time by the developer. It has come to our shock that a new application was accepted by the council inspite of the previous one being rejected.

We request you to kindly reject the planning application, failing which we will have no option but to take the council and the developer legally.

We do have financial means and along with other objective take legal action should the planning be allowed to proceed.

This is not a threat but an expression of our concerns which are going unheard presently.
