Type of comment: Object to the proposal

Comment: Dear Team

Please see previous application by the developer - https://www2.richmond.gov.uk/lbrplanning/Planning_CaseNo.aspx?strCASENO=23/0567/FUL.

We did object this application earlier and there is no difference in our opinion now.

We raised concerns about this additional floor in past and it seems like the developer is trying their luck by putting an application with slight changes in the hope it will pass this time.

We kindly request you to consider our objection along with the past application where we laid out our concerns to you and reject this application to proceed further.

We are happy to have a discussion with the council and explain why we think we are concerned. e.g. inconvenience to current residents, overcrowding in the development, parking issues already faced currently, additional floor would look ugly and unsafe, loss of light to neighbours, noise pollution during and after construction, etc.
