Comments

Type of comment: Object to the proposal

Comment: We object to the application on the grounds that it will substantially change the look and character of the terrace. We are concerned about the impact such a deep excavation could have on the sewage, drainage, water table and foundations of my nearby property (which has suffered subsidence in the past). We also believe the plant room poses a noise pollution threat and the entire construction timeline is unrealistic and likely to pose too much disruption to the nearby primary school and the peace of this small cul de sac.
