Type of comment: Support the proposal

Comment: Looks much improved with two lanes approaching Chalkers corner from Mortlake. I was going to suggest that if you moved all the on street parking from the left side of the road as you approach onto the right side where this is a large amount of grass then you could achieve the two lanes needed to differentiate between then you are turning left of right which causes blockages. Obviously reviewing the timing synchronization of the lights will help. Also, lots of people coming from the mortlake cemetery direction do a u-turn on chalkers corner because they cannot turn right at the lights. Putting a camera there would prevent extra traffic blocking up the junctions.
