Type of comment: Object to the proposal

Comment: There are two buildings that are much too high and dwarf the historic buildings already in place. It taller than Thames Eyot, Surely locals have always preferred low level. No buildings should be above the top of the trees. They are so big that any garden area planted will be in shade most of the time. I hope you have a lot of ferns. Do we really need another pub!! A good restaurant on that site would be great. On Rugby days and in hot weather there are already enough drunks around carousing, vomiting and sometimes being violent. I understand that there has STILL been no safety audit for the turning circles at the bottom of Water Lane. How can you possibly vote on a scheme when you have no idea of the safety of drivers and pedestrians! I worry about access for the Emergency Services under this plan. Apparently you have also had no Parking survey undertaken on the removal of the parking spaces you propose. Currently with mobility problems can park (or be parked) on the Embankment and enjoy the Riverside. Its a long way to walk on crutches or wheelies or be pushed from Aaragon Road carpark
This scheme is brutalist and hard when it should be soft and pleasant to the eye.
