Comments

Type of comment: Object to the proposal

Comment: I object to this proposal because it is putting the needs of those who visit in front of those who need the parking and access for their livelihood. I am working as an apprentice to the boatyards on Eel Pie Island. I use my van on a regular basis I have to take my tools and often generators and pumps to rescue sinking boats. I need to be able to park close by the bridge I've looked at the six parking loading bays and when I compare to the row of pay and display parking which I use daily it is hard to see how I am going to manage. There are other trades people working on/off the Island. This is going to affect so many young people who are scratching to make a living doing something practical and learning skills for our generation and future generations Please do not allow this development
