Comments

Type of comment: Object to the proposal

Comment: Wharf Lane building is overbearing and overdevelopment. Adversely affects the amenity value of the rest of the site

The flood wall arrangement on the corner of Wharf Lane and embankment is aesthetically poor and a clumsy solution.

The public open space is poor compared with the existing.

Cyclists/scooters and pedestrian potential conflict not addressed satisfactorily.

Vehicle servicing of adjacent sites not addressed satisfactorily.

The existing public amenity value of the site is significantly adversely affected by the proposed solutions as a whole. Let's get it done right - not just get it done.
