Type of comment: Object to the proposal

Comment: It is patently absurd to describe South Worple Way as a two-lane highway. It is true only insofar that it is not a one-way street, but for much of its length it is not possible for cars travelling in opposite directions to pass each other. To proceed with this plan so close to the White Hart Lane Crossing and next to effectively a single-track road without an associated re-design of the road system in the area is not very intelligent.
