Comments

Type of comment: Object to the proposal

Comment: This is a quiet residential area with a grid of small narrow roads which almost entirely contain single dwellings no more than 2 stories high (a few may be extended into the loft) but the proposed blocks of flats are not in keeping with the area and the roads simply cannot sustain that amount of extra traffic. The infrastructure here simply cannot support that number of extra dwellings. Already the increase in use as a rat run because of removing parking in South Worples Way is noticeable. The streets are used by dog walkers, children from the local schools and many cyclists. With any increase in traffic the whole area will lose its character and feeling of community and safety. The building should be no more than 3 stories high as there are no high buildings in the area.
