Type of comment: Object to the proposal

Comment: I object to this development on the basis of road safety. It is not realistic for South Worple Way to facilitate 2 way traffic flow as well as being a safe pedestrian route. The road is already dangerous as many cars and larger vehicles speed through and then access the South Circular via narrow roads with parked cars such as Queens Rd and Treherne Rd. A particular danger spot is at the top of Queens Rd and South Worple Way where people walk into Sheen over the railway footbridge. There is a need for a safe pedestrian crossing here. But ultimately, anything that encourages more traffic in an already dangerous spot is irresponsible and unjustified.
