### Comments

**Type of comment:** Object to the proposal

**Comment:** This plans are unreasonably harsh on the environment and massively intrusive on the tow path of the River Thames. We have an opportunity to force back (from the river bend) this monstrous erection. Make a larger terrace. Let the council take over a larger, broader avenue of access and enjoyment for bikes and people. In the past, we couldn't or wouldn't take into account our natural resources. There is no excuse to let this happen in 2022.
