### Comments

**Type of comment:** Object to the proposal

**Comment:** I object to this proposal on the grounds of its density and its failure to consider the environmental impact due to the inevitable increase in pollution. This part of Mortlake is already an area of total gridlock. Cars and public service vehicles are stationary for many parts of the day with no alternative means of transport. The infrastructure is totally incapable of supporting such a development and it is incredible that such a proposal should come forward given the current difficulties being experienced by all residents of the immediate neighbourhood and nearby vicinities.

We trust the council will refuse permission to such an ill thought through proposal.
