New Stag Brewery planning applications open to public consultation - MY  
FEEDBACK

Hello

**Hope you are good + thank you for all you do ...**

The Stag Brewery site needs to be 100% truly affordable housing ...

**Self build needs to be a option**

Community land trusts need to be an option ...

**Rents below "market" need to happen ...**

We are a rich borough we should be setting an example + making radical change to a very disturbing housing situation ...

**Housing is obviously connected to Mental Health ...**

Thinking holistically not in "silos" let's think about people assemblies - universal basic income - 3 day working week - renewable ...

**No one street homeless ...**

Learning from other countries + towns for example Finland +Manchester + centre for alternative technology ...

**Hope we have a good week**

In love + solidarity

Wendy Micklewright
