Comments

Type of comment: Support the proposal

Comment: The plans for this site have been discussed for many years at a time that an acute housing shortage continues to affect London. Previous requests to the developer to reduce the density of the development have, in my opinion, been addressed as much as possible. Given the urgent need for dwelling construction in London and its surrounding areas, it is time to accept the proposed development for the good of future generations, so that they will have the opportunity to live in the area.
