Subject: Plans A&B

Having received your recent amendments letter
Plan A is going to create an even worse traffic problem than we have at the moment. We don't need more cinemas gyms anything that's going to create more traffic is not only bad for the areas already overwhelmed roads but areas beyond it. Also it is not great for the people the community, never has an area been more unified in its refusal of both planning schemes. The roads in this area and surrounding areas are too small for this kind of generated increase how many times do you have to be told, lives have been lost already and the amount of accidents to. I fear for its community if either plan goes ahead.

From a resident of 50+ years.
